JINGLE ALL THE WAY THE HOLIDAY SEASON

"FROM OBSTACLES TO OPPORTUNITIES: THE CHRISTMAS SPIRIT"

As we gather to celebrate the joyous season of Christmas, let us pause to reflect on the deeper meaning of this time - a celebration of hope, love, and renewal. Christmas reminds us that even in moments of challenge, light always finds its way through, much like the story of the performing arts.

Every performance begins with preparation, dedication, and sometimes even moments of struggle. But when the curtain rises, the magic happens - just as the spirit of Christmas unfolds its beauty amidst life's trials. Over the years, I have witnessed how perseverance and passion can transform obstacles into opportunities, much like the journey of an artist perfecting their craft.

This season, let us celebrate the small victories, the strength we find in our communities, and the joy of sharing our gifts with one another. May your hearts be filled with the same warmth and inspiration that the arts bring to life, and may the melody of Christmas bring harmony to our lives.

Wishing you all a season filled with peace, happiness, and the courage to keep chasing your dreams.

MERRY CHRISTMAS! & A HAPPY NEW YEAR

RAINFALL BRINGS RESPITE AND CHALLENGES IN KARUR

- ROMEO ANTONY M

Recent heavy rains in Karur have transformed the landscape, bringing much-needed respite to the region's water bodies and agricultural fields. The showers, which were part of widespread rainfall across Tamil Nadu, have rejuvenated the environment, filling reservoirs and enriching the soil. Farmers are optimistic about a fruitful harvest season, thanks to the abundant rain.

However, the downpour also posed challenges, leading to school closures for safety and minor disruptions in daily life. Authorities were proactive in issuing timely alerts and ensuring minimal inconvenience to the public. Streets saw waterlogging in a few low-lying areas, and residents displayed remarkable community spirit in navigating these hurdles together.

As Karur's residents adapt to the rains, the season serves as a reminder of nature's power and its impact on our lives. With better preparedness and cooperation, the community is tackling these challenges while embracing the benefits that come with this seasonal gift.

FROM THE DESK OF THE MUN STUDENT LEADER: REFLECTIONS ON TRUMP'S VICTORY

As a member of the MUN Club, I am thrilled to share my thoughts on Donald Trump's unprecedented victory in the 2024 U.S. presidential election and what it means to the international community.

His return to the White House is poised to significantly impact both domestic policies and international relations, with the world closely observing how his "America First" approach will shape key global issues. Trump's win, following a fiercely contested race, highlights the enduring power of his populist movement, resonating with millions of Americans who feel neglected by traditional politics.

On the global stage, his victory carries profound implications for international relations. Many nations are now recalibrating their diplomatic strategies, preparing for a president who is known for his unconventional approach to global issues. There is great uncertainty about how the U.S. will engage with long-standing allies, as well as how it will address global challenges like climate change, trade, and security.

As future leaders and diplomats, it is crucial for us to closely monitor and analyze the ripple effects of such historical events. Through the MUN Club, we foster discussions on leadership, policymaking, and global diplomacy. By engaging in debates on pressing socio-economic and political issues, we take vital steps toward building a more united and progressive global community.

KG & PYP

PARENTS TEACHERS MEETING!

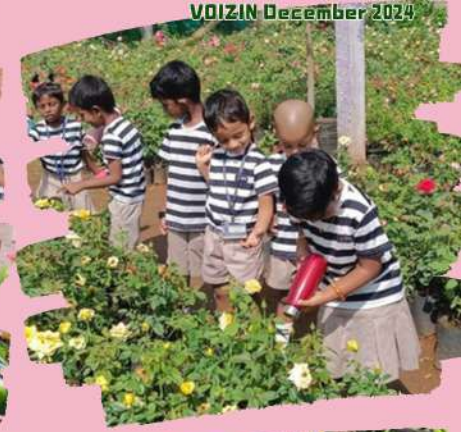

Date: 06.12.2024

Grade: KG 1B

**Theme: Sharing the Planet
Field Trip - Nursery**

KG 1 students embarked on an exciting field trip to a nursery, where they explored and discovered the wonders of various plants and flowers. The vibrant colors and beauty of the flowers captivated the children's attention, sparking their curiosity and enthusiasm. During the visit, students connected their prior learning to real-life experiences, identifying the different parts of rose plants and other flora.

This hands-on experience allowed students to develop a deeper understanding and appreciation of the natural world. By observing various types of plants, students gained valuable insights and reinforced their classroom learning in a fun and interactive way.

Date: 05.12.2024

Grade: KG2

Activity: Fieldtrip

Theme: Sharing the Planet

The kindergarten field trip to the park was an exhilarating and enriching experience that fostered curiosity and a love for nature. As inquirers, the children explored the outdoors, engaging with the natural environment and participating in hands-on activities.

Through observation, they developed an understanding of the interconnectedness of living things, noting various plants and trees. They embarked on simple nature walks, identifying different species of fish, insects, and flowers.

The trip also provided opportunities for the children to develop their social skills, teamwork, and motor abilities through collaborative activities. These included discussing nature logs, viewing various types of plants with peers, and playing outdoor games.

CRAZY HAIR DAY

Crazy Hair Day is a fun-filled event where our buddies unleash their creativity and showcase their wildest hairstyles. They used colorful wigs, eye-catching clips, shimmering bands and fun accessories to create their unique look. This was a day to embrace their individuality, self-expressions, and lots of laughter!

GRADE 4

Grade 4 students recently completed their UOI summative assessment through a 'Shadow Dance/Puppet Show' and a 'UV Dance', showcasing their understanding of light, sound, and teamwork. Their performances were impressive, and we're proud of their creativity and effort! We have shared a few pictures of the activities for you to enjoy.

UOI STRATEGY

Field Trips

Field trips are an exciting opportunity for Grade 2 students to step outside their classroom and experience hands-on learning. This trip aimed to blend education with fun, making it an unforgettable experience for the children. Here are some happy moments of field trip of our little hearts

GRADE 2 FIELD TRIP: VELLODE BIRDS SANCTUARY THEME: SHARING THE PLANET

GRADE 3

FIELD TRIP: MUKKOMBU DAM THEME: SHARING THE PLANET

Grade 3 - Field Trip

Our Grade 3 students visited Mukkombu Dam to explore real-life examples of adaptation in plants and birds. They observed aquatic plants like water lilies and hydrilla, learning how their features aid survival in water. They also noticed birds with long beaks and legs, perfectly suited for wetland ecosystems. It was an inspiring educational experience.

GRADE 5

FIELD TRIP: MUSEUM THEME: WHERE WE ARE IN PLACE AND TIME

The Grade 5 field trip to the captivating museums of the Karur district was an enlightening adventure, sparking curiosity and deepening the students' understanding of ancient civilizations. Both the museums provided a glimpse into the past and illustrated the evolution of human life. The children viewed artifacts from the Indus Valley Civilization, which brought them closer to their inquiry.

★ Grade 5

• Dissecction

Theme: Inside the living things
Strategy: spark activity
Dissection of flower and orange

Students have done a detailed illustration of the plant cells. It served as a great aid in identifying the organelles.

MS.NISHANTHINI
Mother of Ninavh Ashwin Kumar

GRADE 3

Our Grade 3A students had an inspiring Reading Monday session that featured an engaging and motivational story about Robin Hood led by a parent guest. Through the interactive storytelling, students learnt and also participated in fun activities. The session was both educational and entertaining, concluding with rewards for active participation and leaving the students motivated to make a positive impact.

Our Grade 3B students had an inspiring Reading Monday session that featured an engaging and motivational story on food wastage, led by a parent guest. Through the interactive storytelling, students not only learned the importance of reducing food waste but also participated in fun activities like puzzles, riddles, and tongue twisters. The session was both educational and entertaining, concluding with rewards for active participation and leaving the students motivated to make a positive impact.

Our Grade 3C students eagerly participated in an engaging Math session, exploring innovative tricks and hacks for learning multiplication tables. Our parent volunteer facilitated a valuable and interactive discussion, answering questions and making learning fun!

This session proved to be a huge success, enabling our students to grasp mathematical concepts with ease and enthusiasm.

STUDENTS'S REFLECTION on READING MONDAYS

Reading Monday!
Parent's Name: Ms. Greetha

Ms. Greetha aunty made us play games. She also told a story that was fascinating to me. She told that we should obey to our teachers and parents. And finally we all took a photo and gave a card to her.

Charvie 3A

Reading Monday

Today in morning Ajay's dad came and tell story about don't waste the food and he ask some questions and he gave gift to everyone in the class.

Yugan Rithik

THE HOUR OF MAGIC

This book was very nice and it was the twelfth adventure in the kingdom of Fantasy. The story was about Blossom was getting ill for that Gr.5 needs to fix the sand clock for it he needs to go to the kingdom of witches and stop the west wind. This story was my favorite and was a very adventure book.

★★★★★ - 5 stars

The Celery Stalks at Midnight

The Celery Stalks at Midnight by James Howe is a witty and suspenseful adventure in the Brunista series. Harold, Chester, and Howie team up to solve the mystery of disappearing vegetables and a supposed vampire dery. The story is filled with humor, clever twists, and the quirky charm fans love. It's a delightful read that keeps you entertained from start to finish.
